**North Carolina State University Patent Policy Acknowledgement For Graduate Students Enrolled in Non-Thesis Masters Degree Programs**

To: Duane K. Larick, Associate Dean, NCSU Graduate School and Director, NCSU Office of Technology Transfer

I am a graduate student in the \_\_\_\_\_ non-thesis Masters degree program. The degree I am seeking does not involve research of any kind at North Carolina State University. I understand that the North Carolina State University Patent Procedures do not require me to sign the Patent Agreement but do require that I report to the University any new invention that I create/co-create that is, or may be, created using any University resources. Such reports will be made to the Office of Technology Transfer and the NCSU Intellectual Property Committee according to the procedures that they have in place for other University-owned inventions. I understand that the NCSU Intellectual Property Committee will examine the circumstances surrounding the invention and will determine an equitable resolution of rights in the invention.

I understand that I am not allowed to participate in any sponsored research programs funded by the Federal Government, by State Appropriations, by University (departmental, foundation, gift monies, etc.) funds, or by private industry. I understand that before I may become involved in any sponsored research program and/or any research activity that makes use of University facilities, equipment, time, funds, or related resources, I must sign the Patent Agreement. I represent that I will undertake such research activities only after signing the North Carolina State University Patent Agreement.

I represent that I have not made any inventions and/or discoveries that have, or may have, used University resources.

I am also an employee of \_\_\_\_\_ while I am attending graduate school. I have received no stipend or compensation of any kind from North Carolina State University. I hereby represent that my employer is aware of and approves of the foregoing.
