

## Electronic Communications -- Web Site Update

Mea Culpa -- The MTT site fell into disarray until 22 May.

On 22 May the site was moved to [http://www.webcom.com/uw\\_web](http://www.webcom.com/uw_web)

- Alias from IEEE server
- Local host (Santa Cruz, CA)
- Considerably cheaper than what was approved at the last AdCom
- Complete and instant access to all files
- Response time is down to hours vs. weeks. (IEEE was updating twice per month)
- **Cost:**
  - ◆ Basic Service:
  - ◆ \$24.95/mo
  - ◆ 10MB storage (Present usage ~ 1.2MB)
  - ◆ 500MB access (Estimated traffic at current rate: 240MB / mo. )
  - ◆ 5MB secure traffic (none in use yet)
  - ◆ 3 email accounts (none in use yet)
  - ◆ 1st Month Free
  - ◆ Domain Name Service (InterNIC fees also apply) 1 domain name included -- InterNIC is \$50/year (e.g. [www.ieeemtt.org](http://www.ieeemtt.org))
- **Optional Monthly Fees**
  - ◆ Additional Email Accounts (addresses) \$2.95 ea.
  - ◆ Additional Disk Space \$2.95/MB
  - ◆ Additional Network Traffic \$.08/MB
  - ◆ Additional Secure Network Traffic \$.80/MB
  - ◆ 15% discount on all fees for registered (IRS Sec 501 (c)(3) tax exempt status) nonprofit organizations. (in process)

### **Recommendations:**

- Continue to support the local website.
  - ◆ Multiple people can access the site and help to maintain the various areas.
- Add an AdCom access page
  - ◆ Secure
  - ◆ Forums
  - ◆ Voting
  - ◆ Set up with consultants / Maintained by AdCom volunteers
