ECE ALUMNI HALL OF FAME
Nomination Criteria

The ECE Alumni Hall of Fame was established to inspire our current students and to celebrate the accomplishments of our extraordinary graduates who use their education to excel in a profession, career, or service. With more than 15,000 ECE alumni, only a select number will be chosen as ECE Hall of Fame members, making this a truly noteworthy distinction (and membership is free).

The nomination is based on profession and service achievement, entrepreneurship and contributions to professional societies. Examples of such noteworthy activities that would warrant a nomination may include (but are not limited to):

- Recognized by technical organizations at a high level (e.g. IEEE fellow).
- Significant number of influential technical publications or patents in the ECE field.
- Successful Faculty member at a University
- Founded a successful small to medium business.
- Served at the senior management level in a large corporation.
- Recognized by a national community organization for their impact.
- Participated at a leadership level in a nationally recognized community service organization (eg. United Way, Red Cross, Habitat for Humanity).
